Dave Heil, attorney and member of CFOA (Central Florida Offshore Anglers), Chairman of the South Atlantic Chapter of the Fishing Rights Alliance. Lead attorney in the upcoming legal challenge to the grouper and upcoming snapper closures.

South Atlantic Fisheries Management Council has decided to shut down the red snapper fishery for an "interim" six month period followed by an annual six month closure which has all the potential to be extended. Grouper has been shut down from January to April next year already. Next step for fisherman is legal action, Dave Heil will be working pro bono with the Florida Fishing Rights Alliance (FRA) to take action.

THIS IS AN IMPORTANT MEETING FOR ALL OF US!!!! Come see how we as recreational fisherman can help in this action which will control the future of bottom fishing and ultimately all fishing for us.
